Living

Thoughtfully Designed. Built to Last.

This collection focuses on everyday function: solid hardwood coffee tables (round and live edge), matching end tables, C tables that slide neatly under the sofa, slim console tables, and simple live edge benches.

Each piece is made from 100% solid South American walnut with hand-finished surfaces and paired with powder-coated steel bases for stability and long-term durability. Edges are rounded and sanded smooth, finishes are sealed to handle daily use, and proportions are designed to sit comfortably within modern living spaces.
